

Table 3. Infection history and immunization status

Primary and challenge infection combinations

Primary Infection	Challenge Infection	Immune Status	Final Status	n
<i>E. falciformis</i>	<i>E. falciformis</i>	homologous	<i>E. falciformis</i>	14
<i>E. falciformis</i>	<i>E. ferrisi</i>	heterologous	<i>E. ferrisi</i>	21
<i>E. falciformis</i>	Uninfected	uninfected	Uninfected controls	9
<i>E. falciformis</i>	Uninfected	uninfected	<i>E. falciformis</i>	11
<i>E. ferrisi</i>	<i>E. falciformis</i>	heterologous	<i>E. falciformis</i>	10
<i>E. ferrisi</i>	<i>E. ferrisi</i>	homologous	Uninfected controls	7
<i>E. ferrisi</i>	<i>E. ferrisi</i>	homologous	<i>E. ferrisi</i>	16
<i>E. ferrisi</i>	Uninfected	uninfected	Uninfected controls	23
<i>E. ferrisi</i>	Uninfected	uninfected	<i>E. falciformis</i>	3
Uninfected	Uninfected	Uninfected controls	Uninfected controls	7
Uninfected	Uninfected	Uninfected controls	<i>E. falciformis</i>	1
Uninfected	<i>E. falciformis</i>	naive	<i>E. falciformis</i>	6
Uninfected	<i>E. ferrisi</i>	naive	Uninfected controls	1
Uninfected	<i>E. ferrisi</i>	naive	<i>E. ferrisi</i>	7
